

# HACKATHON RISK AWARENESS

*DEV OUTREACH CIRCLE*

# OBJECTIVE

Involve developers in hands-on experimentation and innovation by building real-world use cases using AI services available in the marketplace. This online hackathon empowers participants to create impactful solutions and push the boundaries of AI technology.

**Date:** November 18th to 24th 2024  
**Registration:** October 28th to November 11th  
**Prize:** \$10K  
**Team members:** 2 to 4

Photrek's Risk Assessment Service by our community member Kenric who got funded through Deep Funding and successfully launched his service on the SNet marketplace

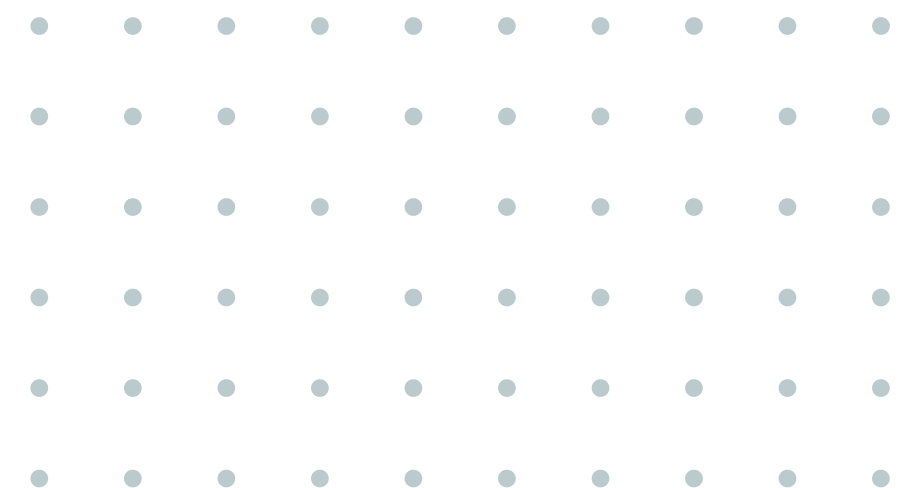

## ONBOARDERS

As an Onboarding Specialist, your role will directly support the success of development teams by helping them launch their services on the marketplace.

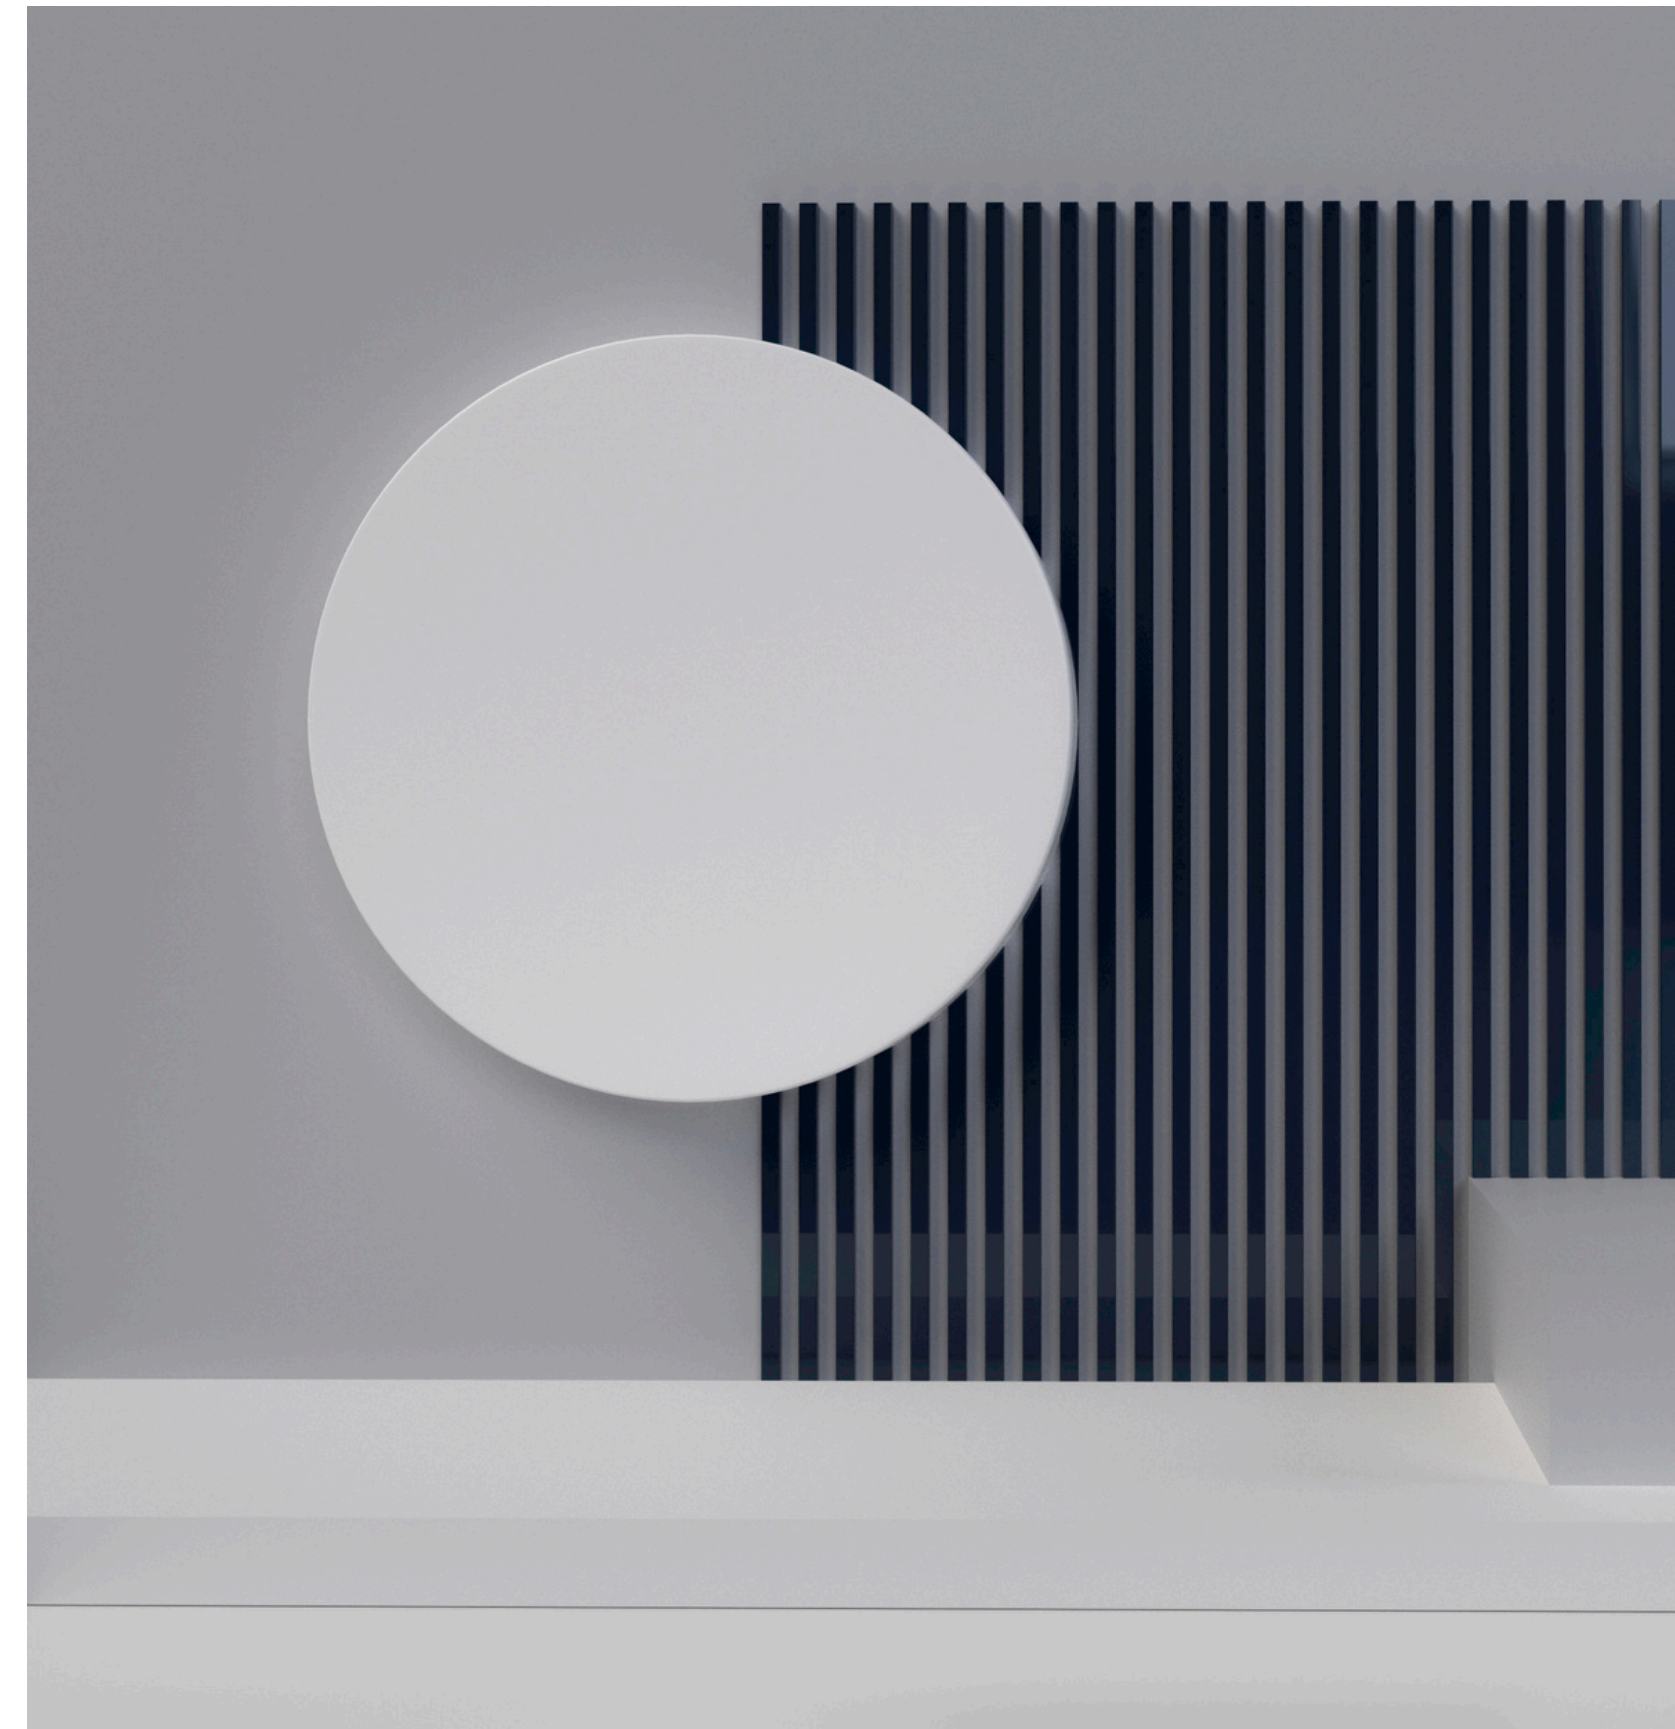

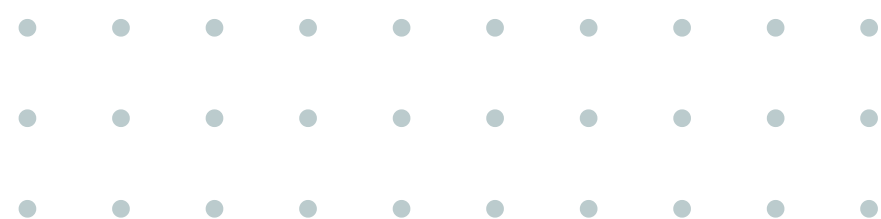

## DEVELOPERS

Whether you're a seasoned pro, or just starting out with development, there is a place for you here and we are looking forward to your participation!

# ONBOARDERS

After every funding round, we have many awarded teams that are looking to work with qualified developers to help them get their services launched on the marketplace. As an Onboarding Specialist, you play an extremely important role in the success of the development and growth of our decentralised AI platform.

# WHY BECOME AN ONBOARDING SPECIALIST

1

Training to become an onboarding specialist takes around 5–7 calls over the span of 2 weeks and requires you to be proficient in GRPC

2

offer you the chance to earn \$10 per hour, paid in AGIX tokens, for your time during training and onboarding activities.

3

your role will directly support the success of development teams by helping them launch their services on the marketplace.
